D10 Yanmar Power Pack

D10 Yanmar Power Pack

The D10 is a compact and portable diesel driven hydraulic power unit for operating a range of equipment. Typically it is packaged with drum skimmers fitted with our E150 recovered oil transfer pump.

Alternatively it is offered to power the E150 alone or Hydraulically Operated Pressure Washer.

It features a hand and electric start diesel engine mounted in a steel cage frame fitted with controls. Handles and solid wheels are fitted so that the unit can be moved around the site. The open style allows excellent access for maintenance.

The D10 has a precision cut control panel with valves to control flow of the two hydraulic circuits (skimmer & pump). Twin hydraulic pressure gauges show the working pressures.

A hydraulic tank is mounted above the hydraulic pump and fitted with level / temperature gauge, filter and filler/strainer.

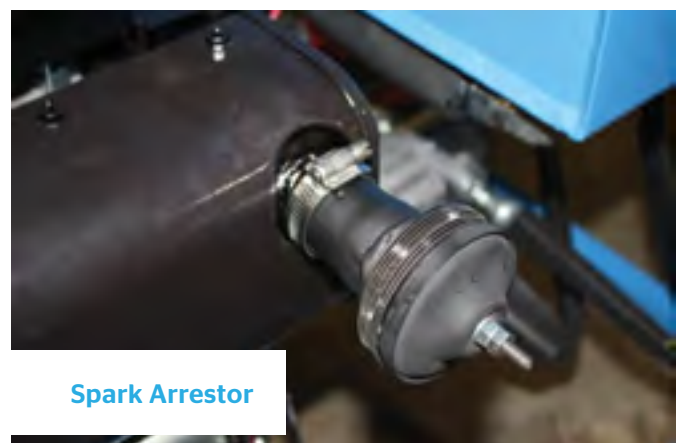

Specifications

Drive:	10hp / 7.5kW air cooled Yanmar diesel engine with 12 Volt Electric and Recoil Hand start
Max Hydraulic Output (tandem pump):	Skimmer: 6 gpm / 23 lpm @ 2500 psi / 172 bar E150 Pump: 4 gpm / 15 lpm @ 2500 psi / 172 bar Variable flow controls
Frame:	Skid mount with lifting Bracket.
Hydraulic Tank:	12.5 gallons / 47 litres. Spin on return filter, fluid level and temp gauges, tank top filler/strainer.
Fuel Tank:	1.25 gallons / 4.7 litres
Hydraulic Quick Couplings:	Stainless Steel
Lifting:	Central lift point
Fabric Cover:	Included
Dimensions	57 x 36 x 42 inch / 1.45 x 0.91 x 1.07 metres
Weight:	390 lbs / 177 kg Dry 490 lbs / 222 kg Wet

Note: The handles and wheels are removed for packaging. Hydraulic fluid not included with units.

Optional: Spares kit, Spark arrestor , engine over speed protection valve.

Delivering Certainty

We're more than equipment suppliers. We're problem solvers.
And that's unique in the Australian market.

We can provide complete solutions for spills, workshop services
and products as well as workplace safety and hygiene.
Everything you need. One point of contact
