## **OdourPro**<sup>®</sup>

### **Containerised Dosing Unit**

#### **Overview:**

A complete chemical storage and dosing system in a single portable configuration. Units are fully bunded and comply with all required dangerous goods legislations. The containerised option is available in 10ft for up to 2300L & 20ft for up to 20,000L storage of product. Both are supplied complete with dosing skid, control panel and required ancillary items.

#### **Benefits:**

Reduced requirement for site civil infrastructure.

Rapid deployment

Incorporates full chemical bund with 110% capacity of total storage.

Increased flexibility: Interchangeable between sites.

Able to be fitted with any predesigned Odour Pro dosing skid assembly.

Increased safety with integrated emergency shower & eye wash.
